

What IT
Should Be
Doing

```
graph TD; A[What IT Should Be Doing] --> B[Network-Based Directory Application]; A --> C[Explore Active Collab or other project management and collaboration systems]; B --> D[Tied into HR]; B --> E[Web-browseable];
```

The diagram is a hierarchical tree structure. At the top is a box labeled 'What IT Should Be Doing'. Two lines descend from this box to two separate boxes: 'Network-Based Directory Application' on the left and 'Explore Active Collab or other project management and collaboration systems' on the right. From the 'Network-Based Directory Application' box, two more lines descend to two smaller boxes: 'Tied into HR' and 'Web-browseable'.
